

# OPEN TROLLEY VIA6

CARRO EXTRAÍBLE VIA6  
CHARIOT VIA6 OUVRANT

Code N° RHF028

June 2015

## DESCRIPTION

Trolleys VIA for Securail Horizontal are made of aluminum alloy. The rollers, made of stainless steel, are fixed on the bearing. The rollers of the fixing bolts are treated to prevent galling when tightening the bolts into the aluminum body.

Several VIA trolley models are available depending on the system configuration. The VIA6 carriage can be connected or disconnected in any part of the rail.

## TECHNICAL SPECIFICATION

Comes with an installer and user manual.

Material: Aluminium and stainless steel alloy
